## Fieldtown set dance for 6

Concise version:

Standard Fieldtown figures:

Foot up; half gyp; back-to-back; rounds.

=====

Chorus: All face up.

Top couple do "the thing," moving a big step away from partner.

Next couple do "the thing," moving a big step away from partner.

Last couple do "the thing," moving a big step away from partner.

Everybody do "the thing," moving back into the set.

Half hey and end facing down.

Repeat the same sequence (original tops, now at the bottom, begin).

=====

"The thing" is different for each chorus.

1st time - "Out and Up" - taking one step to the side (away from P), thrust outside hand Out (elbow height), then bring hand in and Up (not directly up, but swooping in like giant checkmark). For fourth time (all together), all use inside hand and step in to face partner ready for hey.

2nd time - "Bow + salute" taking one step to the side (away from P), bow down, sweeping outside hand down and in as you bow. Then rise up, bringing outside hand in and out/up (about 30 degrees less than directly overhead). For fourth time (all together), all use inside hand and step in to face partner ready for hey.

3rd time: \*\*Rainbows: taking one step to the side (away from P), lift both hands directly over head, then sweep them down in arcs to end with both arms outstretched at full length (roughly shoulder height). For fourth time (all together), all repeat "rainbow", and step in to face partner ready for hey.
